

THE NONMETALLIC MATERIALS ASSOCIATION IS YOUR TECHNOLOGY AND BUSINESS PARTNER TO DEVELOP AND ACCELERATE YOUR PROJECTS REGIONALLY AND INTERNATIONALLY

Nonmetallic materials offer numerous major benefits for many industries, including Automotive, Building & Construction, Oil & Gas and Packaging, thanks to their mechanical performance, light weight, durability and cost efficiency

INNOVATION & TECHNOLOGY

- We promote nonmetallic materials as a sustainable alternative in four key strategic sectors: **BUILDING & CONSTRUCTION, OIL & GAS, AUTOMOTIVE, PACKAGING.**
- We work across the whole nonmetallic value chain
- Our objective is to expand the attraction of nonmetallic materials to other sectors, increasing the growth of nonmetallic use cases and supporting the development of local industry

TRAINING & CERTIFICATION

- We offer enhanced leadership and skill development through workforce training
- We support cultivating a highly skilled workforce
- We promote best practice and knowledge sharing

ADVOCACY & LEADERSHIP

- We advocate the benefits of nonmetallic products
- We support the implementation of regulations and standards
- We promote the sustainable use of nonmetallic products

BUSINESS INTELLIGENCE

- We support Improving industry efficiency through data intelligence
- We track the global crude impact

NETWORKING & EVENTS

- We provide platforms for nonmetallic material advocacy
- We facilitate and promote collaboration
- We promote the SPARK Nonmetallic Hub.

FACTS ABOUT THE ASSOCIATION:

The Nonmetallic Materials Association was created in August 2021 and is headquartered in Kingdom of Saudi Arabia with an Association Center within **the SPARK Nonmetallic Hub.**

The association will develop international partnerships to increase outreach and partner with the leading international organizations acting in the nonmetallic value chain.
